

Temperature Control

# TOUCHSCREEN

## 7" TOUCHSCREEN CONTROL PANEL : Vat management and control in just three clicks !

*The LAMOIROUX temperature control offering is enhanced by the arrival of a new user interface providing a solution for small and medium-sized vat houses.*

The difficulties of using industrial regulators with their complex, inaccessible programming systems are a thing of the past !

### ■ An incredibly user-friendly regulation solution : Programme your vat in just 3 clicks !

Our TOUCHSCREEN CONTROL PANEL provides winemakers with an extremely user-friendly temperature-regulation solution thanks to its 7" touchscreen integrated directly into the control cabinet.

The TOUCHSCREEN has been specially designed to make it as simple as possible to display and programme the temperature-control settings for each vat in just three clicks !

### ■ Heavy-duty, watertight design : guaranteed for use in the winery !

We have succeeded in making the TOUCHSCREEN watertight and robust - essential features for use in the winery. The 7" screen is also discreet, as well as practical and easy to use.

### Optional link with LAVILOG SUPERVISION !

*This new low-cost regulation system can also come with an optional computer link with the LAVILOG SUPERVISION software. This software provides supervision of your temperature-control, air-conditioning and other systems, as well as archiving all your data.*

### How it works

A choice of 2 installation possibilities:

- Single 7" screen set into the control cabinet.
- 7" screen set into the control cabinet and one display for each vat on the front of the cabinet.

## The 3 clicks :

### 1 MAIN MENU SCREEN

### 2 VIEW OF THE VATS

CUVE 01	CUVE 02	CUVE 03	CUVE 04	CUVE 05
